**Background:** The International Republican Institute (IRI) is a nonprofit, nonpartisan, organization dedicated to advancing freedom and democracy worldwide. Since 1983, IRI has worked to develop democratic institutions and ideals, carrying out a variety of international programs to promote freedom, self-government and the rule of law worldwide. IRI provides technical assistance in the areas of political party strengthening, developing civic institutions and open elections, promoting democratic governance and advancing the rule of law.

The International Republican Institute (IRI) will implement a multifaceted program to prevent political violence through attitudinal change. Through this program, IRI will promote norms of nonviolence and positive political engagement with political party student wings, nonpartisan students and youth, and the public.

As part of its activities, IRI will convene interfaith dialogues with religious leaders to discuss the drivers of politically motivated interfaith violence and actions that can be taken to prevent and mitigate politically motivated interfaith violence. Dialogues at the local and national level are key to fostering nonviolent and inclusive politics and ensuring Bangladesh maintains its pluralistic tradition during this time of political transition.

### **Eligibility:**

- Based in Bangladesh
- Two years' experience working on similar projects

### **Period of Performance:**

7-month period of performance from date of signature (approximately December 2024 – June 2025)

### **Statement of Work:**

IRI will provide technical and financial assistance to one Bangladeshi organization to develop a series of 16 district-level interfaith dialogues with religious leaders to discuss the drivers of interfaith and electoral violence in their area and declare a localized peace pledge tailored

to their area in Dhaka, Khulna, Barishal, and Rajshahi Divisions. Interfaith dialogues are common in Bangladesh but are rarely utilized to prevent political violence. This partner will identify locally legitimate religious leaders from all relevant faith communities in each district. The partner will lead outreach to local religious leaders, socializing the idea of interfaith peacebuilding and securing buy-in for the program.

The partner organization will also convene division level interfaith dialogues across the Dhaka, Khulna, Barishal, and Rajshahi Divisions of Bangladesh. Each of these dialogues will facilitate the development of a division-level interreligious peace pledge regarding electoral nonviolence, tailored to each division and receiving input from the district-level dialogues and peace pledges.

In addition to dialogues, the partner organization will also develop a basic training curriculum on reporting incidents of interfaith violence and provide this training to dialogue participants at the district-level. This training will define interfaith violence (i.e. what incidents are and are not interfaith violence), provide knowledge and skills in documenting and reporting incidents, and provide awareness of government offices and officials for reporting.

At the conclusion of the district and divisional dialogues, the partner organization will also convene a national interfaith dialogue in Dhaka. This national dialogue will include religious leaders (representative of Bangladesh's major religious groups) from previous IRI engagements across Bangladesh's 8 divisions, members of political parties, officials from the Interim Government (including officials from the Home Ministry, Ministry of Religious Affairs, and others), and members of the media. At this national dialogue, religious leaders will discuss national drivers of interfaith and electoral violence in the new political context and develop and declare a national interreligious peace pledge. This peace pledge will be presented to the political parties, Interim Government, and media.

## Cost Applications:

The budget should be submitted in two forms: (1) a detailed, cost category budget and (2) a milestone budget.

1: Cost Category budget: A detailed budget in US Dollars including the specific line item costs outlined here must be submitted to estimate project costs. Each application should also have a detailed explanation of why the budgeted amounts are necessary for completing the scope of work. The total amount budgeted for this project must not exceed \$105,000 USD.

All one-time and recurring costs must be fully described in the budget. Rates should be quoted, inclusive of all but showing separately, costs of inspection, services, transportation, taxes, import duties if any and other levies.

- *Personnel* – In general, employees receiving benefits from the applicant organization are considered staff. Consultants hired to assist with the program, who do not receive benefits, should be included under contractual. Identify staffing requirements by each position title and brief description of duties. For clarity, please list the annual salary of each position, percentage of time and number of months devoted to the project. (e.g., Administrative Director: \$30,000/year x 25% x 8.5 months; calculation:  $\$30,000/12 = \$2,500 \times 25\% \times 8.5 \text{ months} = \$5,312.5$ ).
- *Travel* - Staff and any participant travel:
  - International airfare
  - In-country travel (not in the United States)
  - Domestic travel in the United States, if any
  - Per diem/maintenance: includes lodging, meals and incidentals for both participant and staff travel. Rates of maximum allowances for U.S. and foreign travel are available from the following website: <http://www.gsa.gov/portal/category/21287> and [http://aoprals.state.gov/content.asp?content\\_id=184&menu\\_id=78](http://aoprals.state.gov/content.asp?content_id=184&menu_id=78). Per diem rates may not exceed the published U.S. government allowance rates; however, institutions may use per diem rates lower than official government rates.
  - Please explain differences in fares among travelers on the same routes (e.g., project staff member traveling for three weeks whose fare is higher than that of staff member traveling for four months). Please note that all travel, where applicable, must be in compliance with the Fly America Act. For more information see <http://www.gsa.gov/portal/content/103191>.
- *Supplies* - List items separately using unit costs (and the percentage of each unit cost being charged to the grant) for photocopying, postage, telephone/fax, printing, and office supplies (for example, Telephone:  $\$50/\text{month} \times 50\% = \$25/\text{month} \times 12 \text{ months}$ ).
- *Contractual* – Estimate the direct costs for items such as translation, interpretation, honoraria, local hires, legal fees, accounting/audit services, and any other contractual work that will be needed as part of the project.
  - Consultant Fees: For example lecture fees, honoraria, travel, and per diem for outside speakers or external evaluators: list number of people and rates per day (for example,  $2 \times \$150/\text{day} \times 2 \text{ days}$ ).
- *Other Direct Costs*- these will vary depending on the nature of the project. The inclusion of each should be justified in the budget narrative. Audit costs can be

included if they are not part of the indirect pool and only the portion of the cost associated with this program.

- *Indirect/Overhead Costs* – applicants can choose to budget directly for costs such as rent, utilities, technology, human resources and other general operating costs, **or** a de minimis rate of 15% can be applied to the total amount of direct expenses budgeted **or** the percentage of approved NICRA. **NOTE:** Organizations that have had an approved NICRA currently or in the past, cannot use the 15% de Minimis; they must budget and report directly on the indirect costs of the project.

**Evaluation and Award Process:**

1. Applications will be evaluated by IRI for compliance with administrative requirements, previous experience of similar projects by the Applicant, technical capacity, the qualifications of the personnel for the project, and prices. IRI may contact the Applicant's previous clients and may obtain any information related to other projects that the Applicant has executed. IRI may contact any applicant for clarification or additional information, but Applicants are advised that IRI reserves the right to make decisions based solely on the information provided with the applications. IRI may but is not obligated to conduct additional negotiations prior to issuance of a contract and may at its sole discretion elect to issue contracts to one or more applicants.
2. Mathematical errors will be corrected in the following manner: If a discrepancy exists between the total price proposed and the total price resulting from multiplying the unit price by the corresponding amounts, then the unit price will prevail and the total price will be corrected. If there were a discrepancy between the numbers written out in words and the amounts in numbers, then the amount expressed in words will prevail. If the Applicant does not accept the correction, the offer will be rejected.

contract line items is significantly overstated or understated as indicated by the application of cost or price analysis techniques. An application may be rejected if IRI determines that the lack of balance poses an unacceptable risk.

4. IRI will conduct a Technical/Price Weighted evaluation and source selection based on evaluation factors listed below.

Technical evaluation factors have a total of 80 points; price evaluation has a total of 20 points. These factors will serve as the standard against which all technical information will be evaluated and identify the determination factors that Applicants should address. IRI intends to evaluate applications in accordance with the Statement of Work of this RFA and make an award to the Applicant achieving the highest combined score proposal (technical and cost), demonstrating both technical compliance and price reasonableness.

5. If a cost realism analysis is performed, cost realism may be considered in evaluating performance or price.

1. The applications will be evaluated by a technical evaluation committee using the criteria shown below. When evaluating the competing applications, IRI will consider the written technical/capability information provided by the applicants, and any other information obtained by IRI through its own research.

**CERTIFICATION REGARDING ALLOCATION OF FUNDING RESOURCES**

By responding to this solicitation, the bidder provides the certification set out below:  
The Applicant to the best of its current knowledge certifies that the Level of Effort (LOE) stated in the cost category budget submitted with this proposal is correct and adequate to complete the scope of work.

The Applicant also certifies that all costs, including indirect costs submitted as part of this proposal are properly allocable to IRI and any other USG awards on the basis of a beneficial or causal relationship between the expenses incurred and the USG awards to which they are allocated in accordance with applicable requirements. Further, the same costs that have been treated as indirect costs have not been claimed as direct costs. Similar types of costs have been accounted for consistently across all USG awards.

If the Applicant is claiming the 15% de minimis rate in the budget, this methodology once elected will be used consistently for all US Government funded awards until such time as the Applicant chooses to negotiate for a rate, which the Applicant may apply to do at any time.

In the event that any of the personnel assigned to the project are collaborating directly or indirectly with another international cooperation project, we will notify the administrator of the project IRI is implementing, understanding that the level of work should not exceed 100% among all the international cooperation programs of the United States Government. If the stated level of effort changes at any time during the implementation of the subaward, Applicant will immediately inform IRI and make adjustment, and document what other resources will be brought in to cover those responsibilities and complete the scope of work and milestone deliverables.
